UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS GCE Advanced/Advanced Subsidiary Level

MARK SCHEME for the November 2004 question paper

9706 ACCOUNTING

9706/02

Paper 2 (Structured Questions), maximum raw mark 90

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which Examiners were initially instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began. Any substantial changes to the mark scheme that arose from these discussions will be recorded in the published *Report on the Examination*.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the Report on the Examination.

• CIE will not enter into discussion or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the November 2004 question papers for most IGCSE and GCE Advanced Level syllabuses.

Grade thresholds taken for Syllabus 9706 (Accounting) in the November 2004 examination.

	maximum	minimum mark required for grade:			
	mark available	А	В	Е	
Component 2	90	61	52	32	

The thresholds (minimum marks) for Grades C and D are normally set by dividing the mark range between the B and the E thresholds into three. For example, if the difference between the B and the E threshold is 24 marks, the C threshold is set 8 marks below the B threshold and the D threshold is set another 8 marks down. If dividing the interval by three results in a fraction of a mark, then the threshold is normally rounded down.

- (e) (i) If the company goes out of business the shareholders cannot be held personally liable for the company debts.
 - (ii) The death or retiral of a director of a limited company need not affect the business.

However,

- (iii) Annual accounts must be professionally audited.
- (iv) Companies must file annual return and accounts with the Registrar of Companies.
- (v) There is much more "red tape" than with sole traders or partnerships.
- (vi) Each shareholder must be sent a copy of the company's annual audited accounts.

Any other relevant answers.

Any 5 points.

(f) Assumption

FC remains fixed

VC always in same proportion to sales

SP is constant

Sales mix does not change B/E based on one product

Cost mix constant

Costs either fixed or variable

Technology/efficiency does not change

No outside influences

etc

Limitations must follow on from assumptions

Limitation

Rent etc may increase

Economies of scale may occur

Competition may force lower prices

Demand forces changes

Few produce only one product

Labour intensive becomes capital intensive

Some are semi-variable

Firms constantly aim to improve

We live in a real world

Any two pairs for (4)
