Paper 2 Fundamentals of Accounting

October/November 2024

1 hour 45 minutes

You must answer on the question paper.

No additional materials are needed.

INSTRUCTIONS

- Answer all questions.
- Use a black or dark blue pen.
- Write your name, centre number and candidate number in the boxes at the top of the page.
- Write your answer to each question in the space provided.
- Do not use an erasable pen or correction fluid.
- Do not write on any bar codes.
- You may use an HB pencil for any rough working.
- You may use a calculator.
- You should present all accounting statements in good style.
- International accounting terms and formats should be used as appropriate.
- You should show your workings.

INFORMATION

- The total mark for this paper is 90.
- The number of marks for each question or part question is shown in brackets [].

This document has 20 pages. Any blank pages are indicated.

The company accountant of J plc had prepared draft financial statements for the year ended 30 June 2024. The following balances remained in the books of account.

2

	\$
6% bank loan (2024)	11 000
Bank	1980
Inventory	83900
Other payables	3150
Other receivables	5320
Plant and equipment Cost Provision for depreciation	137 000 66 940
Property Cost Provision for depreciation	60 000 8 160
Retained earnings	122300
Share capital (ordinary shares of \$1 each)	70 000
Share premium	4280
Taxation	13600
Trade payables	21450
Trade receivables	32680

The draft statement of profit or loss showed a profit for the year of \$83250.

It has since been discovered no account had been taken of the following errors and omissions.

- 1 Closing inventory had been understated by \$2000.
- 2 Administrative expenses included an interim dividend of 3% that had been paid on 1 April 2024.
- 3 An amount of \$1250 prepaid on distribution costs had been treated as an accrual.
- 4 The 6% bank loan (2024) had been repaid on 30 June 2024.
- The property was purchased on 1 July 2021 and had been correctly depreciated for each of the two years ended 30 June 2023 using the straight-line method at 2% per annum. However, the depreciation charge on the property for the year ended 30 June 2024 had been incorrectly calculated using the reducing balance method at 10% per annum.
- 6 The taxation liability at 30 June 2024 had been over estimated by \$3000.

3

(a)	Calculate the corrected carrying value of Property at 30 June 2024.						
	[2						
(b)	Calculate the revised profit for the year ended 30 June 2024.						
	Workings:						

[7]

(c) Prepare the statement of financial position at 30 June 2024. Use the space provided on page 5 to show your workings.

J plc Statement of financial position at 30 June 2024				

5

Workings:	
	[4.0]

The directors of J plc are aware that one factor causing the value of plant and equipment to depreciate is wear and tear.

(d)	State two other factors that may cause the value of plant and equipment to depreciate.
	1
	2
	[2]

(e) State the formula for **each** of the following ratios.

Ratio	Formula
Profit margin	
Return on capital employed	

[2]

Having calculated both these ratios, the directors are pleased that both achieve the company's targets.

7

They are wishing to expand and are planning to acquire additional plant and equipment with an estimated cost of \$80 000. They are considering two financing options but are also concerned as to the effect that these will have on the ratios.

Option 1 Request a five-year bank loan to purchase the equipment outright.

Option 2 Take out a three-year lease agreement for the equipment.

both financial and non-financial factors.

2 Alex owns a wholesale business purchasing and selling goods on cash and on credit. Control accounts are used to check the accuracy of the individual purchases and sales ledger accounts.

The following information is available for September 2024.

1 Sales ledger account balances on 1 September 2024:

	\$
Amounts owed by customers	64 280
Amount overpaid by one customer	215

2 Totals from the books of prime entry:

	\$
Cash book	
Cash sales	15230
Receipts from credit customers	196380
Discounts allowed	2440
Refund of overpayment	215
Sales journal	188740
Sales returns journal	2560
General journal	
Contras to purchases ledger	1150

(a) Prepare the sales ledger control account for September 2024.

Sales ledger control account

\$	\$

On 30 September 2024 the following information was available relating to trade payables.

9

	\$
Total of balances in the purchases ledger	41 350
Balance of the purchases ledger control account	40 592

The following errors were discovered. When corrected the balance of the purchases ledger control account agreed with the total of the balances of the purchases ledger.

- 1 The total of the purchases returns journal, \$1560, had been entered in the purchases ledger control account as \$1650.
- 2 The balance of a trade payables account had been overstated by \$80.
- 3 A refund of \$320 to a credit supplier had been recorded correctly in the cash book but posted to the credit side of the supplier's account.
- The total of the discounts received column in the cash book had been understated by \$68. 4
- Interest charged by a supplier on an overdue account, \$16, had been omitted from the 5 purchases ledger control account.
- (b) (i) Calculate the corrected total of balances in the purchases ledger.

[2]

4 H Limited is a service company providing administrative support to businesses. The company operates two separate departments, Payroll services and Accountancy services.

13

The directors are currently preparing budgets for the year ending 31 December 2025.

The company's fixed overheads include the salaries of the employees.

Each department has five employees working 48 weeks each year, 40 hours per week.

The Payroll services department employees earn \$18 per hour whilst the Accountancy services department employees earn \$21 per hour.

The company's other fixed overheads of \$68000 are apportioned \$35000 to the Payroll services department and \$33000 to the Accountancy services department.

Each department also incurs variable overheads of \$7 per hour.

The company charges its clients \$35 per hour for all services supplied.

(a) Calculate for the Payroll services department only:

(i)	the total number of chargeable hours available for the year ending 31 December 2025
	[1]
(ii)	the break-even point in hours
	[3]
(iii)	the number of chargeable hours required to produce a profit of \$45000 for the year ending 31 December 2025.
	[1]

Due to poor motivation, the Payroll services department is expected to work at 85% capacity during the year ending 31 December 2025.

(b) Prepare a budgeted marginal cost statement to show the Payroll services department profit for the year ending 31 December 2025.

H Limited Payroll services department Budgeted marginal cost statement for the year ending 31 December 2025	
	• • • • •
	[4]

The directors of H Limited are of the opinion that the performance of the Payroll services department must be improved. Two opportunities for further development have arisen.

15

Option 1

The company has been approached by a competitor business wishing to dispose of all of its payroll work. The extra work would require an additional 4180 chargeable hours in the department over and above the **total** number of chargeable hours available.

In order to take over this work, H Limited would have to employ two new employees and would result in the department's capacity being over 100%.

Overtime is paid at a premium of 50%. In order to increase motivation and to retain their current and new staff, the directors feel that they would have to increase the fixed salaries to \$21 per hour, the same rate earned by the Accountancy services department staff.

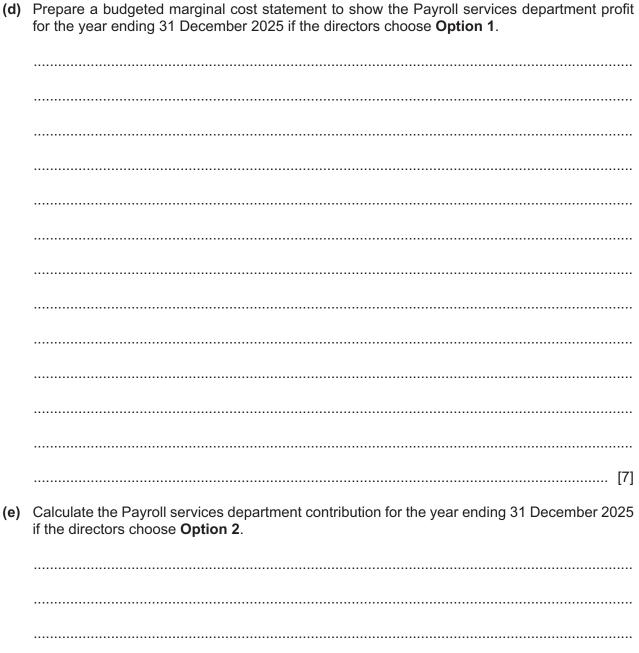

Option 2

The company has also been approached by a large overseas company offering to process all of the payroll work for a fixed fee of \$390000 per annum.

If the directors choose this option, the Payroll services department would be closed down. H Limited would continue to charge its clients an annual fee for providing the data. This would be based on a 22% mark up on the cost of the annual fixed fee charged.

year ending 31 December 2025 if the directors choose Option 1 .
[3]

SAAM SIHT NI BTIAW TON OO	NISONA SIHT NI STIGW TON OO	NICOVM SILT NI BLIOW TON CO	MADOW SITE

The directors require each department to make a profit of \$45000 for the year ending 31 December 2025. The Accountancy services department is budgeted to make a profit of \$49800 for the year.

17

both f	e the dir financial	and no	n-finan	cial fact	ors.				

The directors make use of cost-volume-profit analysis in the decision-making process.

(g) State three limitations of cost-volume-profit analysis.
