ENGLISH LANGUAGE 1123/22

Paper 2 Reading

October/November 2017

MARK SCHEME
Maximum Mark: 50

Published

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge International will not enter into discussions about these mark schemes.

Cambridge International is publishing the mark schemes for the October/November 2017 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

® IGCSE is a registered trademark.

Question		Answer	Marks	Allowed Responses	Not Allowed Responses				
1(a)	rea	Identify and write down how fishing has been carried out through the ages, and the reasons for the decline in fish stocks, and the consequences of this decline, as outlined in the passage.							
	1	Killing fish with spears common in ancient times (given)	1 mark for each correct point up to a max. of						
	2	(Fishermen) struck (surface of) sea to make / encourage (frightened) fish to jump into nets		Struck surface of sea and fish jumped into nets					
	3	Fly fishing // artificial bait in bright colours (to attract fish to bite)							
	4	(Using) hook suspended on / attached to a line // line fishing			Lift of lines 15–17 'fish, attractedon the line'				
	5	Toxic plants used to induce torpor in (river) fish (to make fish easy to catch)							
	6	(Use of) gill-nets (suspended straight down into the water)							
	7	Trawling // pulling a net behind the boat (which hauls in fish as the boat moves)		'drifting' for 'trawling' Lift of line 21 'somewhat similar to gill-nets is trawling' = pt 7 only					
	8	Fish processing vessels/ships/boats // vessels/ships/boats get fish ready for sale / market before boats land / dock // vessels/ships/boats catch, clean, fillet, sort and freeze fish before boats land / dock

Question	Answer	Marks	Allowed Responses	Not Allowed Responses
1(b)	Now use your notes to write a s carried out through the ages, ar consequences of this decline, a	nd the rea	sons for the decline in	

Candidates have now fleshed out their notes into a piece of formal, continuous prose.

The mark for Style incorporates TWO categories of writing, namely OWN WORDS and USE OF ENGLISH. The table which follows on later page provides descriptors of the mark levels assigned to these TWO categories.

In assessing the overall mark for Style, first of all assign the script to a mark level under the category of OWN WORDS. Then arrive at the mark level for USE OF ENGLISH.

Under OWN WORDS, key pointers are: **sustained**, **noticeable**, **recognisable but limited**, **wholesale copying** and **complete transcript**. The difference between wholesale copying and complete transcript is that, whereas in wholesale copying there is nothing / little that is original, the copying has been selective and directed at the question, but with a complete transcript the candidate has started copying and continued writing with little sense of a link to the question. Complete transcripts are rare.

Under USE OF ENGLISH, take into consideration the accuracy of the writing, and the ability to use original complex sentence structures.

Write marks for OWN WORDS and USE OF ENGLISH separately in a text box (found in the marking palette) beneath the question. Add the marks for OWN WORDS and USE OF ENGLISH together and divide by two. Raise any half marks to the nearest whole number e.g. OW 3, UE 2, giving 3 to be entered in Scoris marks column.

Cambridge O Level – Mark Scheme **PUBLISHED**

October/November 2017

Question	Answer	Marks	Allowed Responses	Not Allowed Responses
----------	--------	-------	-------------------	-----------------------

SERIOUS ERRORS

Wrong verb forms.

Serious tense errors.

Serious errors of sentence structure, especially in setting up subordination.

Omission or obvious misuse of prepositions.

Wholesale misunderstanding over the meanings of words used.

Serious errors of agreement.

Using a comma to replace the necessary full stop.

Mis-spellings of simple, basic words, e.g. were / where // to / too / two // their/ there.

Breakdown of sense.

Serious omissions, or serious intrusions e.g. of definite article. Ignore what are clearly slips.

Irrelevance: Put IR in the margin to indicate a stretch / section of irrelevance. This may be a gloss or an example or elements of the text which do not address the question. Such scripts may be described as OW recognizable but limited by irrelevance. (See OW Box 3)

Wrong or invented material: Put a cross in the margin to indicate a stretch / section of wrong or invented material.

Short answers

While examiners are not asked to count words, candidates have been asked to write 150 words. There is no penalty for long answers but, if a script is OBVIOUSLY short, please count the words, mark as normal (i.e. arrive at mark under OW and UE, then add together and halve) and award marks to the following maxima:

66-80 = 4 marks max for style

51-65 = 3 marks max for style

36-50 = 2 marks max for style

21-35 = 1 mark max for style

0-20 = 0 marks for style. No assessment of OW and UE is necessary.

Question	Answer	Marks	Allowed Responses	Not Allowed Responses
----------	--------	-------	-------------------	-----------------------

SUMMARY STYLE DESCRIPTORS

Mark	Own Words	Mark	Use of English
5	 Candidates make a sustained attempt to re-phrase the text language. Allow phrases from the text which are difficult to substitute. 	5	 Apart from very occasional slips, the language is accurate. Any occasional errors are either slips or minor errors. There is a marked ability to use original complex syntax outside text structures. Punctuation is accurate and helpful to the reader.
4	 There is a noticeable attempt to rephrase the text. The summary is free from stretches of concentrated lifting. 	4	 The language is almost always accurate. Serious errors will be isolated. Sentences show some variation, including original complex syntax. Punctuation is accurate and generally helpful.
3	 There are recognisable but limited attempts to re-phrase the text detail. Attempt may be limited by irrelevance or by oblique or mangled relevance. Groups of text expression are interlaced with own words. The expression may not always be secure, but the attempt to substitute the text will gain credit. 	3	 The language is largely accurate. Simple structures tend to dominate and serious errors are not frequent, although they are noticeable. Where sentences show some variety and complexity, they will generally be lifted from the text. Serious errors may occur when more sophisticated structures are attempted. Punctuation is generally accurate.
2	 Wholesale copying of large areas of the text, but not a complete transcript, Attempts to substitute own language will be limited to single word expression. Irrelevant sections of the text will be more frequent at this level and below. 	2	 Meaning is not in doubt but serious errors are becoming more frequent. [8+ errors as a guide, but balance against sentence structure is also necessary] Some simple structures will be accurate, although this accuracy is not sustained for long. Simple punctuation will usually be correct.
1	 Pretty well a complete transcript of the text expression. There will also be random transcription of irrelevant sections of the text. 	1	 Heavy frequency of serious errors, sometimes impeding reading. Fractured syntax is much more pronounced at this level.
0	Complete transcript	0	 Heavy frequency of serious errors throughout. Fractured syntax
